

Uintah Basin Telephone Association

OWNER	- Uintah Basin Telephone Association
TYPE OF PROJECT	- Office Headquarters
LOCATION	- Roosevelt, Utah
GENERAL CONTRACTOR	- Valley Builders (435) 528-7211
APPROXIMATE VALUE	- \$230,000

General Communications installed systems within an executive boardroom, training room, and an overflow area for the training room of this facility. Both rooms were interconnected so that information initiated in either room could be shared by the other. The control of this was done through a Crestron control system. Security measures were instituted to allow system control by authorized individuals only, thereby maintaining confidentiality.

THE SYSTEM'S BASIC FUNCTIONS INCLUDED THE FOLLOWING:

- Crestron Computer Control System
- Sound Reinforcement System
- Lighting Control
- Rear Projection Intelligent Whiteboard
- Document Camera
- Teleconferencing System
- Videoconferencing System
- Control of Various Media Devices
- Audio Follow Video Technology
