

## Cybertouch Parts Price List

SIN #	Model	Product Description	GSA Price
58 3	O1581S	O1581 is professional - grade 15.1" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 15.1" diagonal color TFT LCD as display and a resistive touch screen as input device.	<b>\$1,794.01</b>
58 3	O1581U	O1581 is professional - grade 15.1" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 15.1" diagonal color TFT LCD as display and a resistive touch screen as input device.	<b>\$1,381.03</b>
58 3	O1781S	O1781 is a professional - grade 17.1" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 17.1" diagonal color TFT LCD as display and a resistive touch screen as input device.	<b>\$2,889.67</b>
58 3	O1781U	O1781 is a professional - grade 17.1" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 17.1" diagonal color TFT LCD as display and a resistive touch screen as input device.	<b>\$2,438.17</b>
58 3	O1980S	O1980 is a professional-grade 19.0" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 19.0" diagonal color TFT LCD as display and a resistive touch screen as the input device.	<b>\$2,672.95</b>
58 3	O1980U	O1980 is a professional-grade 19.0" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 19.0" diagonal color TFT LCD as display and a resistive touch screen as the input device.	<b>\$2,383.98</b>
58 3	O2081S	O2081 is a professional - grade 20.1" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 20.1" diagonal color TFT LCD as display and a resistive touch screen as the input device.	<b>\$3,321.92</b>
58 3	O2081U	O2081 is a professional - grade 20.1" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 20.1" diagonal color TFT LCD as display and a resistive touch screen as the input device.	<b>\$3,040.18</b>
58 3	O2480S	O2480 is a professional - grade 24.0" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 24.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$5,007.57</b>
58 3	O2480U	O2480 is a professional - grade 24.0" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 24.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$4,731.84</b>
58 3	O3280S	O3280 is a professional-grade 32.0" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 32.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$4,587.36</b>
58 3	O3280U	O3280 is a professional-grade 32.0" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 32.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$3,919.12</b>
58 3	O4080S	O4080 is a professional-grade 40.0" integrated 1080p HD touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 40.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$6,784.72</b>
58 3	O4080U	O4080 is a professional-grade 40.0" integrated 1080p HD touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 40.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$6,303.10</b>
58 3	O4280S	O4280 is a professional-grade 42.0" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 42.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$6,079.15</b>
58 3	O4280U	O4280 is a professional-grade 42.0" integrated touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 42.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$5,695.06</b>

58 3	O4680S	O4680 is a professional-grade 46.0" integrated 1080p HD touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 46.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$7,705.79</b>
58 3	O4680U	O4680 is a professional-grade 46.0" integrated 1080p HD touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 46.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$7,368.66</b>
58 3	O5280S	S5280 is a professional-grade 52.0" integrated 1080p HD touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 52.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$10,920.55</b>
58 3	O5280U	S5280 is a professional-grade 52.0" integrated 1080p HD touch screen LCD monitor designed for desktop/wall mount applications. It utilizes a 52.0" diagonal color TFT LCD display and a resistive touch screen as the input device.	<b>\$10,678.55</b>
