

Cathedral of the Rockies

OWNER	- First United Methodist Church
TYPE OF PROJECT	- Catholic Church
LOCATION	- Boise, Idaho
GENERAL CONTRACTOR	- CM Company (208) 384-0080
APPROXIMATE VALUE	- \$200,000

In this project General Communications coordinated the installation of the Audio and Video system with the general contractor. A new sound system was installed into their existing and new sanctuaries. There was constant communication with the owner's representative and the engineer to ensure a successful installation.

THE SYSTEM'S BASIC FUNCTIONS INCLUDED THE FOLLOWING:

- Sound System for voice, instrumental, and media device amplification
- Media device audio programming and control of various media sources
- Video System with large screen projection displays and projectors
- TV Distribution throughout the facility
- Microprocessor based control system with intercommunications via serial loop
- Automated touch panel control for ease of use
- Lighting control
